Foundation Grant Supports the Liberty Science Center

JERSEY CITY, NEW JERSEY— The Investors Foundation, which provides grant funding for organizations that enrich the communities served by Investors Bank, awarded \$100,000 to the Liberty Science Center, a 300,000-square-foot learning center located in Liberty State Park on the Jersey City bank of the Hudson near the Statue of Liberty, whose mission is to “get learners of all ages excited about the power, promise, and pure fun of science and technology.”

The grant will be used for operating support of the Genius Gala 4.0, celebrating science and creativity, to be held at the Science Center on May 1, 2015. All gala proceeds benefit Liberty Science Center’s exhibitions and programs, which offer exceptional experiences for learners of all ages—on-site, off-site, and online.

“Liberty Science Center is grateful to the Investors Foundation for their ongoing support as we work together to expose learners of all ages to the excitement of science and technology,” said Paul Hoffman, President and CEO of Liberty Science Center.

The Liberty Science Center currently houses 12 museum exhibition halls, a live animal collection with 110 species, giant aquariums, a 3D theater, the nation’s largest IMAX Dome Theater, live simulcast surgeries, tornado and hurricane-force wind simulators, K-12 classrooms and labels, and teacher-development programs. More than half a million students, teachers, teachers, and parents visit the Science Center each year, and tens of thousands more participate in the Center’s offsite and online programs.

“For more than 20 years, Liberty Science Center has made a positive difference in the community by providing access to cutting edge educational resources that bring us to a deeper understanding of science and technology,” said Investors Bank President and CEO Kevin Cummings. “We are very proud to support the Center and look forward to what they have in store.”
